Last Updated August 2024	<p><i>If you have a resource to add to the SRF Resource Bank, please email Erin Kanzig at ekanzig@rivernetwork.org with the source, link, and short summary. Thanks!</i></p> <p><i>This is a crowd sourced compilation created for the SRF State Advocates Forum.</i></p>				(Drinking Water SRF or Clean Water SRF-focused?)
Source	Year	Title	Summary	Resource type	DW/CW
American Rivers	2023	Equity and Green Investments in the State Revolving Funds of the Delaware River Watershed 2009-2021	In 2021 American Rivers, with the Water Center at the University of Pennsylvania, set out to evaluate how financial assistance has been historically awarded to those that apply to the State Revolving Funds within the Delaware River Watershed.	Report	Both
Anica, S.T.	2022	Essays on Clean Water Act and Safe Drinking Water Act	This dissertation empirically examines three issues related to CWA and SDWA: 1) Financial Assistance and Environmental Compliance; 2) Financial Assistance Priorities from the Clean Water State Revolving Fund; and 3) Drinking Water Compliance during COVID-19 Pandemic	Academic paper (thesis, peer-reviewed journal article, etc)	Both
ASDWA	2023	A New Era for the Drinking Water State Revolving Funds: Identifying Ways to Better Assist Disadvantaged Communities	Report highlighting recent DAC definition changes made by several states, includes case studies and reflections from SRF program staff, compares DAC definition changes from EPA's white paper on the topic.	Report	DW
ASDWA	2023	Interactive Table on State DAC Definitions	Search for your state's Disadvantaged Community (DAC) definition using ASDWA's database. (Scroll down on page to find the database table)	Database	DW
Brookings Institute	2021	How Equity Isn't Built Into the Infrastructure Bill – and Ways to Fix It	This report examines seven ways in which equity is not prioritized in the IJA, and how these potholes could be avoided as program rules and project selections roll out	Report	Both
CIFA	2020	SRF Profiles	Direct links to Intended Use Plans for each state	Database	Both
Clean Water Action	2023	Equitable and Effective Water Infrastructure Spending: Increasing Transparency and Accessibility in State Revolving Fund Programs	Clean Water Action and Clean Water Fund examined information provided by the 50 States' SRF programs to develop a snapshot of SRF accessibility and transparency and to identify areas of potential procedural improvement.	Report	Both
Clean Water for All Coalition	2024	Coalition Survey and Assessment: State Revolving Fund Technical Needs	This survey and assessment project produced a series of profiles on community water needs. This will be submitted to EPA to inform deployment of technical assistance resources.	Report	Both
Congressional Research Service Reports (CRS)	2019	America's Water Infrastructure Act of 2018: Drinking Water Provisions	The Report primarily addresses the drinking water provisions of Title II and Title IV of the America's Water Infrastructure Act of 2018 ("AWIA").	Report	DW

Last Updated August 2024		If you have a resource to add to the SRF Resource Bank, please email Erin Kanzig at ekanzig@rivernetwork.org with the source, link, and short summary. Thanks! This is a crowd sourced compilation created for the SRF State Advocates Forum.				(Drinking Water SRF or Clean Water SRF-focused?)
Source	Year	Title	Summary	Resource type	DW/CW	
Copeland, C. and Tiemann, M.	2018	Water Infrastructure Needs and Investment: Review and Analysis of Key Issues	This report identifies a number of issues that continue to receive attention in connection with water infrastructure investment.	Report	Both	
Council of Infrastructure Financing Authorities (CIFA)	2020	SRF Facts and Stats	A list of links on introductory information on SRFs and statistics on SRF programs by state	Webpage	Both	
CRS	2008	Safe Drinking Water Act: Selected Regulatory and Legislative Issues	A description of the last major reauthorization and amendments, regulating drinking water contaminants, congressional hearings and reports, and documents.	Report	Both	
CRS	2018	Wastewater Infrastructure: Overview, Funding, Legislative Developments	This report discusses federal funding for wastewater treatment through the State Water Pollution Control Revolving Fund (SRF) program and several other programs as well as current and future funding for the programs.	Report	CW	
CRS	2018	Drinking Water State Revolving Fund (DWSRF): Overview, Issues, and Legislation	An overview of DWSRF Allotments and Set-Asides, Program Appropriations, Water Infrastructure Needs, Funding Issues . and Congressional Actions	Report	Both	
CRS	2019	Water Infrastructure Financing: History of EPA Appropriations	This report summarizes, in chronological order, congressional activity to fund items in the State and Tribal Assistance Grants (STAG) account since 1987. In appropriations legislation, funding for EPA (Environmental Protection Agency) wastewater assistance is contained in the measure providing funds for the Department of the Interior, Environment, and Related Agencies.	Report	Both	
Curley (Environmental Law Institute)	2015	Public Private Partnerships Sustainable Stormwater Financing Forum: Achieving sustainable stormwater infrastructure and economic prosperity through smart financing and PPP: the Leveraging Power of SRF	Powerpoint presentation on the benefits of leveraging private sector investment for stormwater infrastructure costs.	Other	CW	
Daley M.D., Mullin M., Rubado E.M.	2013	State Agency Discretion in a Delegated Federal Program: Evidence from Drinking Water Investment	This article examines the use of discretion by state agencies in the context of multilevel policy. Research on agency discretion assumes that discretion represents a departure from legislative intent. However, Congress may delegate authority to promote policy innovation. Using data on investment in drinking water infrastructure from 2000 to 2008, we examine the relationship between agency discretion and functional expertise in implementing the Drinking Water State Revolving Fund program.	Academic paper (thesis, peer-reviewed journal article, etc)	DW

Investigative Reporting Workshop	2022	Waiting for Water: Infrastructure Law Heralds Hope for Alaskan Tribal Villages Without Running Water	AWIA authorizes the DWSRF to allow extended infrastructure loan terms, requires the provision of additional subsidy to state-defined disadvantaged communities, and expands source water protection-related eligibilities under the Local Assistance set-aside.	Report	DW
Knopman, D., Wachs, M., Miller M.B., Davis G.S, and Pfrommer, K.	2017	Not Everything Is Broken: The Future of U.S. Transportation and Water Infrastructure Funding and Finance	This report focuses on status and trends in operations and maintenance (O&M) and capital spending by all levels of government; reviews current policy and practice; and recommends actions that the federal government could take to better align both policy and spending to public priorities.	Report	Both
Kricun, A.	2019	Using the Clean Water State Revolving Fund to Improve Water Infrastructure and Sustain Affordable User Rates	Testimony of Andrew Kricun, Executive Director of Camden County Municipal Utilities Authority before the Water Resources and Environment Subcommittee, Committee on Transportation and Infrastructure of US House of Representatives regarding the use of the Clean Water State Revolving Fund to improve water infrastructure and sustain affordable user rates	Other	CW
Kunz, K.	2008	The Use of Earmarks to Fund State and Local Infrastructure	This study uses federal appropriations legislation and earmark reports, supplemented by survey data and personal interviews with federal, state, and elected officials and agency executives to explore Illinois' municipal government's use of federal earmarks to finance local infrastructure needs.	Academic paper (thesis, peer-reviewed journal article, etc)	Both
Lawyers for Good Government	2022	A 50-State Survey of State Policies and Decision Makers to Help Ensure Federal Investments Go to "Disadvantaged Communities" Under Biden's J40 Initiative	This report includes analysis of states' DAC definitions related to water infrastructure	Report	Both
Lead Service Line Collaborative	2023	Funding for Lead Service Line Replacement	Guide on funding sources for LSLR	Toolkit, Guide, Handbook	DW
Metropolitan Planning Council	2016	Let the Dollars Flow: Streamlining Illinois' State Revolving Fund	Metropolitan Planning Council, Ill. Environmental Protection Agency and Metropolitan Mayors Caucus conducted research, stakeholder surveys and interviews to recommend a number of reforms to the Illinois State Revolving Fund	Report	Both

Source	Year	Title	Summary	Resource type	DW/CW	
Milwaukee Water Commons	2021	Testimony of Brenda Coley on Water Infrastructure and Environmental Justice	House Committee testimony from Milwaukee Water Commons: Across the nation there is an urgent need for federal leadership to equitably fund the repair and enhancement of water infrastructure. Our delay in addressing the need to replace aging water infrastructure with more adaptive and resilient water management contributes to ongoing economic and public health crises around our nation	Other	Both	
Milwaukee Water Commons	2021	Milwaukee Water Commons Comments on May 2021 DRAFT of State of Wisconsin Safe Drinking Water Loan Program Intended Use Plan for FFY 2021 Funds for the SFY 2022 Funding Cycle	Request for DNT strive to make the maximum amount of PF available for the SFY 2022 funding cycle: 49% of the capitalization grant (14% + 35%) for a total of \$9,187,010.	IUP Comments	DW	
Morris, E. D., & Travis, R. L.	2003	Privatization In State Agencies: A Focus on Clean Water	This article examines the question of why state governments choose to privatize goods and services. After reviewing the literature, to explore the question, the authors devised their own model of state privatization.	Academic paper (thesis, peer-reviewed journal article, etc)	Both	
Morris, J. C.	2017	Planning for Water Infrastructure: Challenges and Opportunities	Summary of the US' water infrastructure needs. Paywall.	Academic paper (thesis, peer-reviewed journal article, etc)	Both	
Mullin, M. and Daley, D.M.	2018	Multilevel Instruments for Infrastructure Investment: Evaluating State Revolving Funds for Water	Evaluates the stimulus effects of SRFs by examining the two largest such programs, the Clean Water and the Drinking Water SRF Programs.	Academic paper (thesis, peer-reviewed journal article, etc)	Both	
National Academy of Public Administration	2017	Developing a New Framework for Community Affordability of Clean Water Services	The Academy conducted this study and developed this report in response to a congressional directive to update these EPA policies and guidance on affordability.	Report	CW	
National Environmental Justice Advisory Council	2016	Environmental Justice and Water Infrastructure Finance and Capacity Charge	The EPA seeks the NEJAC's recommendations on the use of these tools, as well as on best practices to assist vulnerable, overburdened or otherwise disadvantaged communities with providing safe and clean water.	Other	Both	
Natural Resources Defence Council (NRDC)	2022	Water Affordability Advocacy Toolkit	This module addresses affordability and assistance programs that directly reduce the size of the monthly water bill on an ongoing basis, typically through a discount or bill credit.	Toolkit, Guide, Handbook	Both

Source	Year	Title	Summary	Resource type	DW/CW
New Jersey Future and EPIC	2023	Improving a Program that Works: Recommendations to the New Jersey Water Bank for Advancing Equity	This report analyzes NJWB awards (i.e., low interest loans and principal forgiveness) over a 5-year period and also assesses the underlying policies governing how New Jersey defines disadvantaged communities. The report's ten recommendations would increase the equity and effectiveness of the NJWB program and ensure that communities with the greatest needs receive adequate assistance.	Report	Both
New York Times	2022	An Alabama Town's Sewage Woes Test Biden's Infrastructure Ambitions	The new law allocates \$11.7 billion for wastewater and stormwater projects. Will it get to the impoverished communities who need it most?	News Article	CW
NRDC	2014	Using the State Revolving Funds to Build Climate-Resilient Communities NRDC Water & Climate Team	To promote climate-resilient communities, NRDC recommends the development of SRF policies that incorporate (1) water efficiency, (2) green infrastructure, and (3) flood risk reduction.	Report	CW
NRDC	2018	Go Back To The Well: States and the Federal Government are Neglecting a Key Funding Source for Water Infrastructure	This report describes actions that federal and state governments should take to generate more funding for water infrastructure through State Revolving Funds (SRFs).	Report	Both
NRDC	2019	Watered Down Justice	An analysis that revealed that race, ethnicity, and language had the strongest relationship to slow and inadequate enforcement of the Safe Drinking Water Act.	Report	DW
NRDC	2020	CWSRF Affordability Proposals			
NRDC	2020	SDWA Affordability Proposals			
NRDC	2021	Testimony on Sustainable Wastewater Infrastructure: Measures to Promote Resiliency and Climate Adaptation and Mitigation	The purpose of this hearing is to provide Members with additional information on policies and practices to encourage greater resiliency and sustainability of wastewater utilities in meeting the requirements of the Federal Water Pollution Control Act, more commonly known as the Clean Water Act.	Other	CW

Source	Year	Title	Summary	Resource type	DW/CW
NRDC	2024	Will Funds Flow Fairly? State Water Infrastructure Equity Report Cards	This report qualitatively assesses each state’s public, written SRF policies. NRDC defined and applied 16 criteria to assign the state an overall equity score (and associated grade, A through F), with sub-scores for its clean water, drinking water, and lead service line replacement funding programs. These criteria focus on identifying policy obstacles that place financial assistance out of reach for many disadvantaged communities, including policies that treat such communities unfavorably in selection criteria, limit available subsidies, and curb input from the public. Check out your state's scorecard!	Report	Both
Project on Government Oversight (POGO)	2024	EPA Oversight of Drinking Water Infrastructure Spending by States	POGO published more than 100 EPA records that shed light on how the 50 states and Puerto Rico are managing SRF funding. It includes an interactive map along with EPA's annual review checklists.	Webpage	Both
Quantified Ventures	2023	What Are State Revolving Funds and Why Should Watershed Leaders Care?	An introductory blog to the importance of the CWSRF for nonpoint source pollution and green infrastructure for watershed leaders.	Blog post	CW
Quantified Ventures and Environmental Defense Fund	2022	Generating Revenue to Finance Natural Infrastructure Projects in the Mississippi River Basin	This report identifies five replicable forms of revenue generation that can be used to fund or finance natural infrastructure investments and are considered the most feasible to use as repayment for natural infrastructure projects within SRF and resilience revolving fund loans	Report	CW
Resources for the Future	2015	Expected Versus Actual Outcomes of Environmental Policies: CWSRF	This paper examines the performance of the CWSRF, a federally funded program to provide loans to local publically owned treatment works (POTWs) in four states: Iowa, Indiana, Maryland and Texas.	Academic paper (thesis, peer-reviewed journal article, etc)	CW
River Network	2021	Equitable Water Infrastructure Toolkit	Use the toolkit to identify the factors that affect water affordability; become familiar with water infrastructure funding and financing mechanisms; and understand the role and impact of local, state, and federal entities and community organizations in addressing affordability and sustainability.	Toolkit, Guide, Handbook	Both

Source	Year	Title	Summary	Resource type	DW/CW
River Network	2021	Video: Meet River Network's Equitable Water Infrastructure Toolkit	Watch for a walkthrough of the toolkit, see highlights of key components, and how to apply to your community. (56 min)	Webinar	Both
River Network	2022	State Revolving Funds Resources	A compendium of resources on State Revolving Funds. Associated with the River Network SRK Toolkit	Database	Both
River Network	2022	SRF Advocacy Toolkit	This toolkit aims to build the capacity of advocates to influence, improve, and access the process of securing funding for communities who need it most and have historically been unable to access SRF dollars. See References section for extensive SRF resources.	Toolkit, Guide, Handbook	Both
River Network	2022	SRFS 101: The Fundamentals of SRF Administration & Influencing Equitable Infrastructure in Your Community	A 3-part learning session series by River Network, covers the basics of how SRFs function, influencing SRF implementation, and how and when SRF investments can be used to impact water affordability outcomes.	Webinar	Both
Ryan, J.	2021	Can Innovative WIFIA Features Help Expand SRF Loan Capacity?	In its 2020 annual report, the EPA's Water Infrastructure Finance and Innovation Act (WIFIA) loan program describes itself as a "government bank with unique flexibilities." This article discusses if those flexibilities be useful for Clean and Drinking Water State Revolving Funds (SRFs) considering leverage to expand their capacity for loans.	Academic paper (thesis, peer-reviewed journal article, etc)	Both
Southwest Environmental Finance Center & Spring Point Partners	2021	State Revolving Fund Switchboard	Searchable state based repository of SRF documentation and tools	Database	Both
Travis, R., Morris, J.C. and Morris, E.D.	2004	State Implementation of Federal Environmental Policy: Explaining Leveraging in the CWSRF	This article seeks to explain the leveraging decision process, using three models as explanators. We conceive leveraging as a two-stage process—(1) the decision to leverage and (2) the decision of how much to leverage. By employing regression techniques, we find that the Environmental Protection Agency's (EPA's) stated reasons for leveraging—environmental needs and demand for loans—are not significant in the decision to leverage, although needs are significant at the second stage.	Academic paper (thesis, peer-reviewed journal article, etc)	CW

Source	Year	Title	Summary	Resource type	DW/CW
University of Michigan Water Center	2019	Using the State Drinking Water Revolving Fund to Facilitate Lead Service Line Replacement in Michigan: State Case Studies and Recommendations	This memo outlines several policy options that could be utilized to achieve full replacement of LSLs in Michigan through the DWRF program. In addition to the policy options, it is recommended that significant additional funding should be allocated to the DWRF to achieve full replacement of LSLs within 20 years	Academic paper (thesis, peer-reviewed journal article, etc)	DW
University of North Carolina, Chapel Hill, Environmental Finance Center.	2018	Affordability and Principal Forgiveness in the State Revolving Fund Programs of the Environmental Protection Agency Region 4 States	A study of how seven states in EPA Region 4 (Alabama, Florida, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee) are determining eligibility criteria for providing financial assistance to low-income communities applying to both the DW and CW SRF programs.	Report	Both
US Department of Energy	2020	Federal Water Finance Programs	Water Security Grand Challenge hosted a webinar to discuss innovation and finance for the nation's water infrastructure featuring three leaders who manage and direct America's water resources.	Webinar	Both
US Water Alliance	2021	US Water Alliance Knowledge Map	The Alliance created a Recovering Stronger Knowledge Map to plot and share the programs and policies highlighted by water leaders across the country. The tool can help educate the community about established or emerging policies and programs and connect with water leaders.	Database	Both
VanDerslice J.	2011	Drinking Water Infrastructure and Environmental Disparities: Evidence and Methodological Considerations	Only 3 studies compared the demographic characteristics of communities by the quality of their drinking water, and the results were mixed in these studies. Further assessments were hampered by difficulties linking specific water systems to the sociodemographic characteristics of communities, as well as little information about how well water systems operated and the effectiveness of governmental oversight.	Academic paper (thesis, peer-reviewed journal article, etc)	Both
Vedachalam, S. and Geddes, R.	2017	The Water Infrastructure Finance and Innovation Act of 2014: Structure and Effects	The authors examine the structure and implementation of WIFIA and its impact on existing financing mechanisms.	Academic paper (thesis, peer-reviewed journal article, etc)	Both

Volden, C.	2007	Intergovernmental Grants: A Formal Model of Interrelated National and Subnational Political Decisions	This article develops a noncooperative game theoretic model, this approach helps to better explain puzzles surrounding intergovernmental grants, including the 'flypaper effect, asymmetric responses of recipient governments to grant increases and decreases, the grant-acceptance decisions of subnational governments, and tradeoffs between the size of grants and the strings that are attached.	Academic paper (thesis, peer-reviewed journal article, etc)	Both
WA State Department of Health	2018	DWSRF: Customer Handbook	This handbook is a guide for Drinking Water State Revolving Fund (DWSRF) loan recipients.	Toolkit, Guide, Handbook	DW
Wan, X. and Keiser, D.	2020	The Effects of Source Water Protection Grants: Evidence from the Minnesota Clean Water Fund	This paper examines the impacts of CWF source water protection grants on drinking water outcomes. Leveraging the water violation records of hundreds of community water systems (CWSs) in Minnesota, the authors employ panel data and event study research designs to study the impact of these grants on violations. The authors find evidence that water systems incur less health-based violations after they receive a grant.	Academic paper (thesis, peer-reviewed journal article, etc)	CW
Water Hub	2024	Just Infrastructure campaign	Water Hub developed an amazing comms resource - a blueprint for clean water and climate action and the goal of groups across the country working to bring billions of federal water dollars to the ground in neighborhoods and the wild spaces that sustain us. This website is a celebration of Just Infrastructure projects taking root as federal water dollars flow, and a storytelling resource for those pushing for equitable spending and future funding.	Webpage	Both
WaterNow Alliance	2021	Webinar: Leveraging SRFs for Innovative Water Infrastructure Investment	Features Micheal Deane, Chief of the CWSRF at EPA, Nicholas Chamberlain, Team Leader of the DWSRF at EPA, Deidre Finn, Executive Director of the Council of Infrastructure Financing Authorities (CIFA), and Caroline Koch, Water Policy Director at WaterNow Alliance	Webinar	Both
